

Oshrey's Seeing Systems: Seeing the Big Picture

- All organic beings engage in similar systems processes
- **If we are Blind to System Processes we fall into them and:**
 - We fall into differentiation
 - We are individualized and autonomous, rather than a partner
 - We disvalue processes
- **When We See Systems Processes:**
 - We can choose
 - We can integrate
 - We can differentiate
 - We can enhance our system's capacity
 - We can cope with dangers it faces
 - We can prospect opportunities
 - We can encourage others
 - We can encourage others
 - We can re-examine mission
 - We can create oneness
- **Striving to create Robust Human Systems:**
 - With respect, encourage individuality, commonality, communality, diversity
- **When We Don't See Systems:**
 - All perceptions, evaluations and feelings are reality to use
 - We don't see individuality
 - We try to fix personalities
 - We have a personal problem
